BURGLARS AGAIN PAY STANFORD A MIDNIGHT CALL

Buster Sam Robinson's Clothing Store
Monday Night But Fall to Get
\$30 in Safe

If burglars did not visit Stanford on something like a monthly average, life in the old town might become trifling at times, but with the prospect of such midnight visitations and the uncertainty as to whom they will visit next, lends a keen tinge of excitement which keeps the oldest inhabitants from growing stale or suffering from too much ennui.

The "Midnight Marauder" as he is so generally known in the dime novels—was in Stanford on his scheduled visit Monday night. This time the clothing emporium of that popular merchant Sam Robinson, next to the Lincoln County National Bank, was entered, but the visit was fruitless. Mr. Robinson, with rare forethought had taken out burglar insurance. In consequence, although the robber cleared off the combination and opened the outer door of the big iron safe, he was unable to open an inner compartment, guarded by a steel door, in which about \$30 reposed and unless he helped himself to the latest style toggy, with which Mr. Robinson's store is so well supplied, his mission was fruitless. So far, however, nothing in the clothing line, has been missed as yet.

The night was a splendid one for a burglary, rainy and windy and it is probable that the thief worked for many hours on the safe, undisturbed by any one. He gained entrance by coming through the back yard and getting off the front door which guard a rear window and after he had finished, opened the front door and walked out, very carelessly, leaving the door, unlocked.

Mr. Robinson had \$300 burglar insurance, which will more than cover the damage to the safe.

STEER DRAGS HORSE DOWN

Peculiar Mishap on Fox Dudderdar's Place with Gray Mare the Victim

For Dudderdar, the well-known engineer-farmer, near Rowland, came near losing his old gray mare in an unusual sort of accident last week, while he was driving over his place, looking at his feeding cattle. Mr. Dudderdar had some corn in his buggy and a halter hanging over the seat. He left the horse and rig standing while he walked over the field, inspecting his steers. One of the steers, seating the feed, came up behind the buggy and thrust his head under the seat after the corn. In so doing, he became entangled in the halter and becoming frightened, began to endeavor to break out. This he caught under the leg of the seat and he brought the rig right home with him. Old Gray, was taken wholly unawares but such an unusual state of affairs, and before she knew what was what, the steer had dragged her down. The now thoroughly frenzied bovine, was kicking and plunging and breaking down a hill, with the horse thrown down and dragging along, and serious damage would have been done to both animals, had not Mr. Dudderdar noticed the disturbance and managed to liberate the steer before further injury was accomplished. As it was the mare was considerably skinned up and bruised.

Cundiff Gets \$4,000 Damages

W. C. Cundiff, county clerk of Casey county, was awarded \$4,000 damages in the Bank Circuit Court Friday afternoon, for being run off an excursion train at Louisville last August. The case was one of the most stubbornly contested that has been tried at Danville in years. An appeal will be taken to the court of Appeals. An important feature of the case was the decision of Judge Hardin that the law passed by the Legislature creating the office of railway policemen is unconstitutional.—Danville Advocate.—State Senator Charles F. Montgomery, of Liberty was one of Cundiff's lawyers.

Alafalfa Opposite Bell Courthouse

Judge H. A. Faison, with other men who are interested in doing something for the farmers of Bell county, has secured a vacant plat of nearly an acre, opposite the court house in Pineville, and will experiment in growing alafalfa, clover and grasses. The land will be laid off in squares and sown twelve or fourteen varieties will be sown. The seed will be furnished by and sown under the direction of the Kentucky Agricultural Department.

Mother of Elder Montgomery, Dead

News comes from Liberty, in Casey, that Mrs. Rachel Montgomery, aged 84 mother of Elder J. Q. Montgomery, and grandmother of Senator C. S. Montgomery, died at her home there Saturday. Mrs. Montgomery was a noble Christian woman and had many relatives and loved ones in Lincoln county, who will mourn that she is no more.

A Tiny Farm for a Dime

Land is cheap. For easy figuring let us say it is worth \$1 an acre. A square rod, then, is worth only \$1, ten cents' worth will be a little more than twenty-seven square feet, or a little larger slightly more than five feet on the side. How often a boy will buy a dime and think nothing of it. For a dime he can buy land enough to hold a flower bed, four hills of clover, or a peach tree; the boy who can save a dime can become rich. Make a dime look like a tiny farm. The boy who learns to save a dime and to know values will some day come into his own.—From the Breeders Gazette.

HENRY JACKSON TALKS

Popular Boyle Democrat "Mentioned" For Congress, Makes Statement

County Attorney Henry Jackson, of Boyle, came over from Danville on legal business Monday and shook hands with a good many friends on the streets after it was concluded. Mr. Jackson has been "mentioned" very strongly as a candidate to Congress. A friend from Boyle, who was with him declared that he is a sure starter and would make a great race. When asked about his plans and intentions, Mr. Jackson said:

"This rainy weather we are having is going to prevent the farmers from getting their corn planted for some time, I fear, and the present indications are that the precipitation will continue indefinitely."

To all of which his auditors gave hearty concurrence, as it was raining cats and dogs at the time.

Prisoners Get Their Earnings

Judge Stoot, in the Franklin Circuit Court, Saturday decided in favor of prisoners seeking the State Prison Board for a per capita allowed of their earnings under the prison labor contract from June 1, 1910, to August 1, 1912. The law permitting the prison board to allow prisoners part of their earnings became operative June 15, 1910, and the board did not allow the prisoners any portion of their earnings until August, 1912. Since that day the prisoners have drawn in wages about \$50,000 per year. The decree of the court requires the prison board to meet here and set apart for the prisoners a daily allowance of their earnings from June 15, 1910, to August 1, 1912.

Trying to Get Hotel For Danville

(Lexington Leader)

Hon. M. J. Harris, Jr., Logan Caldwell and H. H. Price, all of Danville, are in the city for a few days attending the races. While here the three gentlemen, who are among the most active of Danville's boosters, have been holding a conference with local capital looking to the erection of a new hotel in Danville.

It is understood that the erection of a modern hotel in Danville is regarded as a most profitable investment, but that capital has been reluctant to step in, as long as there was any disposition on the part of the proposition themselves. The inactivity for the past few months has led some of Lexington's capitalists to infer that outside money will be welcomed in Danville for investment in hotel property. Mr. Harris thus morning said that this was true and that the hotel proposition was one of the best business opportunities that now existed in Danville.

Bull Moose to Have Candidates

At a conference in Lexington last week, Progressive party leaders decided to put out a candidate for United States Senator and congressional candidates in each of the districts. It was stated after the conference that George W. Jolly, of Owenton, had virtually announced his candidacy for the nomination by the Progressives for Senator and that James F. Fairleigh, of Louisville, would also be a candidate, as would Thomas Theobald, of Carter county. Thomas L. Walker, who was formerly postmaster of Lexington, and who is member at large of the Progressive State Committee, at the conclusion of the meeting this afternoon, said: "The Progressives are getting ready to start something in Kentucky, and that pretty soon. While the stand pat Republican leaders and press have been making the welkin ring with their distressed cries of 'get together,' the Progressives have been quiet and play-

ing a waiting game to see what kind of an olive branch the Republicans will offer. Since the peace offering to all intent and purposes is Bradfords or someone else, he will name him. The Progressives have let it be known in no uncertain terms that they will have nothing to do with the Republicans, no matter what kind of an olive branch is held out, and so the woods are full of Progressive candidates for Congressman and for Senator."

The largest factor contributing to a man's success is undoubtedly health.

A CONFESSION

Hopes Her Statement, Made Public, will Help Other Women.

Hines, Ala.—"I must confess," says Mrs. Eula Mae Reid, of this place, "that Cardui, the woman's tonic, has done me a great deal of good.

Before I commenced using Cardui, I would split up everything I ate. I had a sleepless, sleepy feeling all the time, and was irregular. I could hardly drag around, and would have severe headaches continuously.

Since taking Cardui, I have entirely quit splitting up what I eat. Everything seems to digest all right, and I have gained 10 pounds in weight."

If you are a victim of any of the numerous ills so common to your sex, it is wrong to suffer.

Cardui is successful, because it is composed of ingredients which act specifically on the womanly constitution, and helps build the weakened organs back to health and strength.

Cardui has helped others, bad will help you too. Get a bottle today. You won't regret it. Your druggist sells it.

FEELS LIKE A NEW WOMAN

As Lydia E. Pinkham's Vegetable Compound Dispelled Backache, Headaches and Dizziness.

Piqua, Ohio.—"I would be very ungrateful if I failed to give Lydia E. Pinkham's Vegetable Compound the praise it deserves, for I have taken it at different times and it always relieved me when other medicines failed, and when I hear a woman complain I always recommend it. Last winter I was taken with a severe case of organic weakness, I had backache, pains in my hips, and over my kidneys, headache, dizziness, lassitude, had no energy, limbs ached and I was always tired. I was hardly able to do my housework. I had taken Lydia E. Pinkham's Vegetable Compound on one other occasion, and it had helped me so I took it again and it has built me up, until now I feel like a new woman. You have my hearty consent to use my name and testimonial in any way and I hope it will benefit suffering women."—Mrs. ORPHEA TURNER, 481 S. Wayne St., Piqua, Ohio.

It is not necessary for a rooster to be

The department advises that on the

first day of May all birds be either

killed, sold or confined until the first

of December or as late as the first of January in some localities.

It is advisable to market the old hens in the summer as soon as the egg laying season is over, continues the department's advice, as hens over two years old rarely lay as many eggs as they do in their pullet and veal seasons. Keep the nests clean, provide one nest for every four hens, gather the eggs twice daily, keep the eggs cool, in a room or cellar, and mark them at least twice a week. Market all cockers except those intended for breeding purposes as soon as they attain broiler size, for they will pay a larger profit at that time than if held until fall, when the market becomes overcrowded.

The department is planning a cam-

paign among the boys' and girls' poultry

clubs in Kentucky, Tennessee, Virginia
